Everyone runs for something, or even for someone. On October 17, you will have the opportunity to run on behalf of one of the individuals in our program that isn't able to run. Come race day, you'll be presented a special pin, designed by the individual you're running for, and you'll sport your button as you complete the race. We hope you will run for us, and help us raise awareness and crucial funds to support our mission.
